Anyone (active bystander) can de-escalate tensions or harmful behavior by drawing on the **CLARA** method. However, before engaging in de-escalation, it is important to assess the situation, including your safety and others. Conflict de-escalation is not a technique that is appropriate for all circumstances.

**Calm and Center Yourself:** Check in with yourself, appear calm, centered, and self-assured even if you don’t feel it. Avoid pointing, crossing your arms, or other more aggressive postures.

**Listen:** Let the person vent and be sure to listen explicitly for feelings, needs, or values.

**Acknowledge:** Begin by acknowledging the feelings, needs, or values you have heard. [Not about agreeing with their position, statement, or behavior.] ex. “I sense your aggravation at this situation. I hear your concern for safety.”

**Respond:** After acknowledgment, if there is a further threat of harassment or violence, offer open-ended or choice questions; address the issue; make a clear request or proposal. ex. “Will you tell me more about your concerns? “I understand you have every right to feel angry but it is not ok to threaten people here.”

**Assess:** Trust your instincts: If de-escalation is not working, STOP & GET HELP.
